KEY INGREDIENTS:

Jojoba Beads	Exfoliant	Spherical beads made from compressed jojoba oil that gently exfoliate without causing micro-lacerations. Botanically derived and fully biodegradable.
Amaranth S	Foaming Peptide	An organically sourced "foaming peptide" that creates a moisture-rich lather, leaving skin feeling soft and clean without stripping healthy oils.
Inyline®	Wrinkle-Relaxing Peptide	A peptide complex designed to help relax muscle contractions that cause fine lines and wrinkles.
Peptiskin®	Collagen-Supporting Peptide	A triple-action peptide complex that helps to increase collagen production, block collagen breakdown, and inhibit unhealthy collagen crosslinking (i.e. hardening and glycation).
Actiphyte® Complex	Botanical Antioxidant Blend	A blend of green tea, chamomile, ginseng, and rosemary extracts provides a rich source of antioxidants to nourish and protect the skin.
Hyadisine™ Solution	Moisturizing Marine Extract	A marine extract that provides immediate and long-lasting moisture as well as an instant improvement in wrinkle appearance, with benefits similar to hyaluronic acid.
